

DISTRIBUTION

STREAMLINING HEALTHCARE

Support for Patient Care

DRAFT

The U.S. healthcare system includes:

- 200,000 physician offices
- 5,000 hospitals
- 3,200 health clinics
- 16,000 nursing home & extended care sites

Each one of has unique product supply and delivery needs.

Healthcare distributors focus on supplies so that physicians can focus on patients.

Distributors enable:

- **Rapid and reliable access.** With just 1 phone call to a distributor, busy healthcare providers have rapid access to more than 20,000 medical product manufacturers.
- **Choice.** Healthcare distributors carry more than 300,000 medical products – giving physicians the ability to choose products that will provide the best patient care.
- **Knowledge.** From logistics expertise to product knowledge distributors supply problem-solving information that frees providers to devote nearly 30% more time and greater resources to patient care
- **Product Availability.** Whenever a doctor calls – whatever product they need – healthcare distributors have it in stock 95% of the time.
